

CB Tech Nanomesh

Custom-manufactured, worry-free microbiological removal

Proprietary Nanotechnology Media for Drinking Water Purification

Viruses • Bacteria • Cysts

Seldon Nanomesh is now CB Tech Nanomesh

Activated carbon and substrate fibers combine to provide enormous surface area for the purification of viruses, bacteria, and cysts from drinking water. In conjunction with the already superior capabilities of CB Tech carbon blocks, Nanomesh presents an unparalleled, customizable option for broad-spectrum water purification without chemical additives or power requirements.

NSF-certified under Protocol P231/P248 (Microbiological Purifier) to remove up to 99.9999% of bacteria, 99.99% of viruses, and 99.9% of cysts, CB Tech Nanomesh is the perfect blend of performance, customization, and peace of mind.
