

CB Tech HTR500

Power, Durability & Security For Public Drinking Water

Powerful filtration for public safety. The HTR500 by CB Tech provides broad-spectrum drinking water contaminant treatment for public water fountains, making it an ideal solution for schools, parks, gyms, community centers, and more.

Contaminant Reduction List

- Asbestos
- Arsenic V
- Atenolol
- Bacteria
- Bisphenol A
- Carbamazepine
- Chloramine
- Chlordane
- Chlorine
- Cyst (Giardia, Cryptosporidium, Entamoeba, Toxoplasma)
- DEET
- Estrone
- Ibuprofen
- Lead
- Linuron
- Meprobamate
- Mercury
- Metolachlor
- Microcystin
- MTBE
- Naproxen
- Nonyl phenol
- PCB
- PFOA/PFOS
- Phenytoin
- Radon
- TCEP
- TCPP
- Toxaphene
- Trimethoprim
- Turbidity
- Virus
- Volatile Organic Chemicals

Specifications

Model Name	HTR500
Housing Dimensions	15.75" h x 15.75" w x 8" d
Weight	35 lbs.
Box Composition	304 Stainless Steel
Filter Housing Composition	316 Stainless Steel
Rubber Items	Silicone
Tubing	LLDPE
Fittings	Acetal Copolymer
Filter Endcaps	Polypropylene
Inlet/Outlet	3/8" Tube
Filter Capacity	500 gallons
Filter Performance	>90% reduction of free chlorine and chloramine
Operating Pressure	30 psi min (2.1 kg/cm ²) – 100 psi (14.1 kg/cm ²)
Operating Temperature	32o F (0o C) – 100o F (38o C)
Flow Rate	1.0 gpm @60 psi
